Reduce document review times while increasing accuracy

Representing the buyer in a $800+ million M&A transaction, the firm had one week to perform buy-side diligence. The task at hand involved the review of over 600 agreements, and due to time constraints, pure manual review was not a realistic option.

Having used eBrevia on multiple transactions of all sizes over the past couple of years, the team knew that the only way the project could be completed in a timely manner was to use eBrevia.

eBrevia accelerates document review with AI

Having previously been trained on eBrevia, the team at McDermott Will & Emery (McDermott) went straight to work. The AI-powered software quickly and accurately extracted the relevant contractual provisions, leaving the team with enough time to raise all material issues with the seller and complete the diligence memorandum. The client was thrilled with McDermott's ability to meet such a tight deadline. McDermott has continued to use eBrevia on a significant percentage of their transactions.
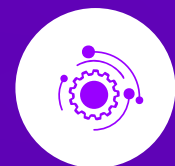

GROUPING FUNCTIONALITY

Review and analyze several related documents as a single unit.

MULTI-DOCUMENT COMPARISON

Identify material differences between seller and customer agreements.

BUILT-IN EXPORT FUNCTIONALITY

Quickly generate relevant inserts for due diligence.

"

In the best way possible, eBrevia has changed the way we perform contract reviews at our firm. We are able to complete reviews of all sizes and complexities in a fraction of the time it would take to perform the review manually, and the number of otherwise impossible deadlines we have been able to meet thanks to eBrevia is a testament to its strength as a product.

Automate and accelerate contract review with eBrevia

FAST

eBrevia is 30-90% faster than manual review – and at least 10-60% more accurate.

EASY

With an intuitive interface and same-day cloud deployment, you can be up and running with eBrevia in no time.

SECURE

We protect your information with bank-grade security, powerful encryption and SOC 2 Type 2 certification.

CUSTOMIZABLE

You can customize eBrevia to meet your specific needs with a robust, open API. Plus, you can easily train the software to extract custom provisions and data points.

SEAMLESS INTEGRATION

eBrevia integrates with many of the leading collaboration platforms, including Venue/VDRs, iManage, Salesforce, Box, SharePoint and more.
